

.Net Developer

Chichester, West Sussex

Outline Opportunity

Due to existing development and new contracts we are looking for an experienced .Net developer to join our team of talented software developers. We work with high profile international clients providing leading web design and ecommerce systems.

Responsibilities:

For this role you will need to be a strong programmer following the full lifecycle; through the gathering of requirements to the design, development and testing of systems. You will also be comfortable estimating development and documentation time and be able to deliver on these along with web deployment.

About You:

You will be self-motivated, organised and willing to take responsibility for developing consistently to a high standard in line with agreed timescales and deadlines. We are looking for a developer with a can-do attitude who is analytical and has a resourceful mind and enjoys working in a team.

Skills and Experience:

This great opportunity will suit a developer with substantial experience in the following;

Requisite Skills

- ASPNet 3.5+ C# website development with SQL Server 2008+ backend
- T-SQL / Stored Procedures
- HTML/XHTML/CSS
- Javascript/jQuery/JSON
- Specification Writing /Documentation

Desirable Skills

- SQL Server Reporting Services / Integration Services
- Entity Framework
- MS Commerce Server 2007
- IIS
- HTML5

Salary and Remuneration

We offer an attractive salary and remuneration package depending upon individual skills and experiences.

About Us

Unipro started in 1997 and we have built our solid reputation by designing, implementing and managing inspired technology solutions for medium to large organisations. We deliver high-performance, cost-effective business applications to an ever-expanding base of retail and commercial clients, on-time and within budget.

Even though we have many years of experience in integrating a wide range of legacy and bespoke systems and developing up-to-date multi-channel ecommerce platforms, we also specialise in Drupal implementations.

If you are interested in applying for this role, send an email to jobs@theuniprogroup.com with ".Net Vacancy" in the subject line. Include your CV and a brief covering letter.
